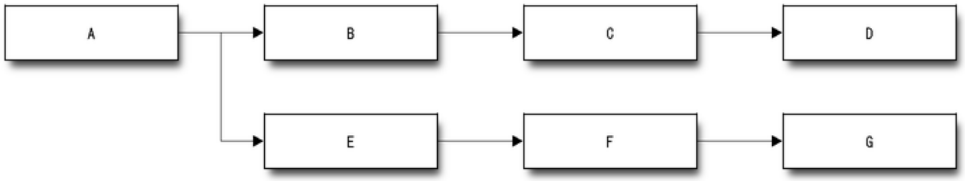
1 Display a diagram with blockdiag

blockdiag is module which plots diagrams.

[1]:
```
from pyensae.graphhelper import draw_diagram
```

[2]:
```
img = draw_diagram("""
        blockdiag {
            A -> B -> C -> D;
            A -> E -> F -> G;
        }
        """)
img
```

[2]:



The page blockdiag - simple block-diagram image generator explains the syntax used to describe a graph.

[3]:
```
draw_diagram("""
blockdiag admin {
   A -> B -> C -> D;
   A -> E;
   A -> H;

   // A and B belong to first group.
   group {
      A; B;
   }
}
""")
```
